

Ebinport Elementary Letter to the Parents

Ebinport, in partnership with our School Improvement Council, recognizes the challenges this year has presented. We remain committed to meeting the needs of our school, the families we serve, and the community of Rock Hill.

Safety First!

Did you know, Ebinport SIC lobbied to move the crosswalk from the middle of India Hook Road to the intersection of India Hook and Ebinport? In addition, your SIC played an integral role in expanding the school zone to include this new crosswalk.

Family Newsletter

Members of Ebinport SIC, in partnership with the Carolina's Center for Family Engagement, planned for and developed a monthly newsletter for families to include information on parent engagement, tips and strategies for navigating education in a pandemic, and even hosted book studies throughout the year.

Sensory Garden

Ebinport SIC planned for and began the execution of developing a sensory garden, with the help of Exceptional Student Services and Master Gardeners of York County.

Health and Wellness

Ebinport continued to commit to the 5-2-1-0 health and wellness initiative. We dedicated funds and resources to making sure every child has access to water all day long and continue to make sure children experience health and wellness in new and exciting ways.

Partnerships

Ebinport fostered numerous partnerships this year. This includes being a partner school with Winthrop University. SIC also partnered with Williams & Fudge to provide virtual mentors to our students. Finally, SIC and Ebinport's PTO partnered on numerous initiatives in keeping with #OneTeamOneMissionOneRockHill.
