

We are Oakdale STEAM

Oakdale Elementary has been an integral part of the Rock Hill Community for many years. The original Mount Holly School, located on

Highway 901/Mount Holly Road was destroyed by fire, and students had to be relocated. They first met in the basement of Mt. Holly United Methodist Church and later in the National Guard Armory on Saluda Street. The new Oakdale School building opened in September 1950 to replace the original Mount Holly School. The school was named for a large grove of oak trees in the area when the school was built, most of which are now gone. Oakdale has been renovated twice (1979 and 1998) since the school opened. The colors are green and white, and the mascot is the Green Dragon. Many generations have attended Oakdale, and we are proud of our rich heritage.

Oakdale Elementary School offers a STEAM program focusing on the integration of science, technology, engineering, arts and mathematics. Building upon students' interests in real-life issues and the world around them, Oakdale will prepare students for the 21st Century through project-based learning.

A Leader in Me School

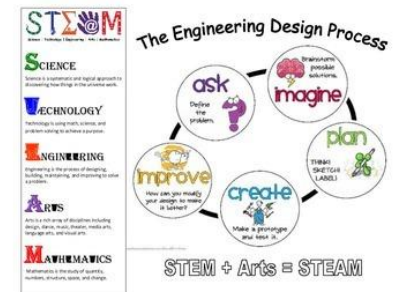

In 2022 – 2023, Oakdale STEAM began year one of Leader in Me implementation. *Leader in Me* or LiM is an evidence-based, comprehensive model that builds leadership and life skills in students, creates a high-trust school culture, and lays the foundation for sustained academic achievement. The framework is built on Stephen Covey's Seven Habits of Highly Effective People and focuses on school culture, academics, and leadership.

Academics

We are committed to providing a strong, well-rounded education through a comprehensive curriculum. Our experienced educators provide the instruction and motivation for students to perform at their instructional level utilizing the highest quality teaching tools, methods, and materials. We open the door to the arts by exposing students to plays, musicals, and other performances at local theatres. Our students also participate in various art and musical productions throughout the year.

The engineering design process emphasizes open-ended problem-solving and encourages students to learn from failure. This process nurtures students' abilities to create innovative solutions to challenges in any subject!

Enrichment

Developing the whole child is very important to us. We provide a high-quality learning environment that is balanced with life-enriching experiences. Our ultimate goal is to establish a solid foundation upon which students can build successful, happy, and prosperous lives.

Some of our favorite events this year:

- Grade level Musicals and STEAM Nights
- Robotics Week
- Leader in Me Portfolio Preview
- Be the Chemist
- Movie Night Under the Stars
- Math and Treat
- Literacy Picnic
- Microsoft Coding Visit
- SOAR Celebrations

Clubs and Activities

25+ Schoolwide Leadership Clubs
Leadership Roles for Each Student
Safety Patrol
Dragon News Network
Braggin' Dragons
First Grade Vegetable Gardeners
Recycling
Litter Critters
Boys and Girls Who Code
Beta Club

Purpose of SIC

Mandated by law, School Improvement Council (SIC) serves as an advisory group to our school. SIC brings together parents, school faculty, and community stakeholders to work together to collectively establish, monitor, and evaluate specific long- and short-range goals for student achievement. In addition, SIC is a resource for parents, community members, and faculty members to share ideas and concerns about our school. Other functions of SIC is to provide an annual school report to parents and the community and increase parental awareness and involvement of SIC initiatives.

PIC•COLLAGE

Mission of Oakdale STEAM

Oakdale STEAM Elementary School will ensure that ALL students are empowered to think critically, collaborate, and become lifelong learners in a positive learning environment.
