

## **WHAT I LEARNED:**

**WHILE AT ATC I WAS ABLE TO GET AN IN DEPTH EXPERIENCE IN A FIELD I WANTED TO GO INTO AS A CAREER. THE EXPERIENCE SAVED ME A SIGNIFICANT AMOUNT OF MONEY SINCE I HAVE RECENTLY MADE THE DECISION THAT WHAT I WENT TO ATC FOR IS NOT WHAT I WANT TO DO. SINCE I WAS ABLE TO FIGURE THAT OUT BEFORE COLLEGE IT IS A LIFE AND MONEY SAVER.**

- What I learned during e-learning:
- I am learning teachers are just as surprised and scrambling as students are. This pandemic took everyone by surprise and while everyone does their best to get back up and start going again there are some things that you really cannot just start up again. For example: a class where your grade is based on an internship that you can no longer go to. But just like any other class we were able to improvise and overcome.

- **Where will I go from here?**
- **After graduating I plan to still go into the field of education but not in the teaching role, I plan to go to college and study American Sign Language and become an interpreter.**

- **Would you recommend ATC? Why?**
- **I would greatly recommend ATC to any level of student because it really helped me figure out what I want to do. I decided which profession before spending thousands of dollars on college.**
