

Intro. To Teaching

- ▶ **Kira Massey** is the Star Student for the Introduction to Teaching program.
- ▶ Kira is my star student for Introduction to Teaching. Kira demonstrates passion and effort when working with children. She always goes above and beyond the expectations in and out of class. All of her work and assignments are above my expectation and her attendance is awesome. She arrives to class on time and is always willing to help classmates. She designs lessons and is constantly thinking of what she can do next with her 4K buddy. She always stays on task and turns in her assignments on time.

EMT program

- ▶ Christian Vanderhoof is the Star Student for the York Technical College Dual Credit EMT program.
- ▶ Christian is being honored because he demonstrates the skills and attributes that employers value.
- ▶ Christian is a very hard-working student who gives great attention to detail in everything he does in class. Christian leads by example in the quality of work he demonstrates for his peers. Christian is a leader in the classroom and lab. Christian will be a great addition to the Emergency Services field when he is finished with high school and college. Thanks, Christian for being such an outstanding young man.

AG SCIENCE Ramsey

Breanna Cotterman is the Star Student for the Agriculture program for the month of November.

She is being honored because she demonstrates the following skills and attributes that employers value.

Breanna is a vital part of the Rock Hill ATC FFA program and is only in her first year of the agriculture program at ATC. She is serving as chapter Secretary for the 2022-2023 school year and is conducting a detailed SAE project in Equine Production. Breanna is eager to participate in classroom conversations and loves to learn more about agriculture. She is a dedicated student and flexible team-member.

Intro. To Construction Martina

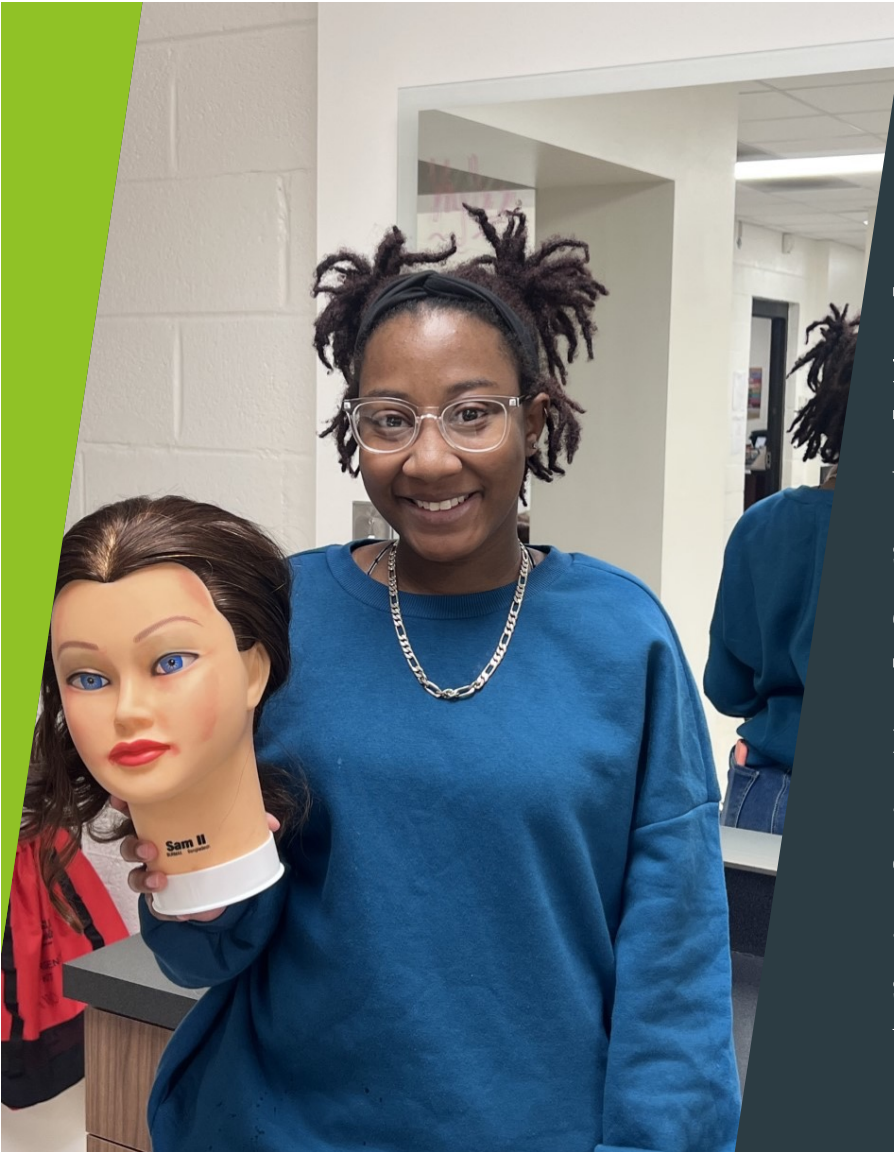

- ▶ Meghan Chandler is the Star Student for the Intro To Construction class and is being honored because she demonstrates exemplary workplace skills. She constantly shows willingness to try new things, shows great work ethic and attention to detail. She does great work and turns in detailed projects.

► Rachelle Anderson is the Star Student for the Health Science Clinical * Patient Care program.

► Rachelle Anderson is being honored because she demonstrates the skills and attributes that employers value.

► Rachelle is a unique young lady. She comes to class smiling, with a positive attitude and ready to start the day. She has a kind, caring heart for her friends and classmates. Rachelle listens to what is said in class, takes it to heart, then displays it when working with her classmates. She reaches out to those around her that she feels may need a little extra help and encouragement. Rachelle works hard to know each skill step by step. When given the opportunity to learn more, she will. She follows directions in class and does not have to be reminded. She can be trusted to work unsupervised, completing the task given. When an assignment is not completed, she does not ask for extra time or give excuses why it was not finished. She accepts the grade she earns, good or bad. She does not appear to look for or focus on the negatives in a situation. Rachelle does not follow the crowd, she creates her own path.

STAR STUDENT FOR COSMETOLOGY

Trinity Boyd is the Star Student for the Cosmetology program. Trinity is being honored because she demonstrates the skills and attributes that employers value. Trinity is punctual and rarely misses a day. She has a pleasant and positive attitude. She is cooperative and eager to learn and to get better at everything she does. She will do well in the beauty industry!

MEDIA TECHNOLOGY STAR STUDENT

Gabe Lilly is the Star Student for the Media Technology program and is being honored because he demonstrates the skills and attributes that employers value.

Gabe is a dependable, thorough, and hard-working student who demonstrates excellent synthesizing and creative skills. Gabe is able to pace synthesize hours of footage into a coherent, well-developed story that hits on the main focal points. When it comes to trying new techniques or learning new skillsets, Gabe meets these challenges with passion. Additionally, Gabe has shown significant improvement through the Media Tech levels.

CONSTRUCTION WALLAT

Landon Kimbrell is the star student for the Carpentry Program this month.

Landon is being honored because he demonstrates the skills and attributes that employers value. He is dependable with his attendance and punctuality. Every day, he puts effort into his work and improving his skills. He is caught up with all of his assignments and is vocal during class discussions. He is always focused on the task at-hand and is not easily distracted. Landon puts great effort into each project he completes and takes pride in his work. Landon works with initiative and is always ready for the next task. He possesses excellent communication skills and is courteous among his team members. Landon shows the willingness and eagerness to learn and apply what he has learned into his life. He demonstrates critical thinking and problem solving skills.

Landon would be a successful and welcomed member of the construction industry.

Intro. To Construction Roesch

- ▶ Nathan Hrebar is the Star Student for the Intro to Construction program.
- ▶ Nathan is being honored because he demonstrates the skills and attributes that employers value.
- ▶ Nathan exhibits great self management and initiative. Nathan is constantly looking to improve himself and always demands excellence from himself. His work ethic is extremely impressive and gives me full confidence in his future in the trade industry.

Digital Arts and Design

Ariel Anderson is the Star Student for the Digital Art and Design program.

Ariel is being honored because she demonstrates the skills and attributes that employers value.

Ariel shows a vast understanding for problem solving skills, tackling any project head on with a well thought out system in place. Ariel's initiative and enterprise skills are also reflected highly in the work that is turned in. Understanding that most projects are open to interruption the creativity put in shows an understanding of the assignment and the elements needed to accomplish her goal.

HEALTH SCIENCE 2

GEORGE

Eileen Hernandez-Romero is the star student for Health Science 2 for November 2022. Stars shine brightly and make a difference. Eileen exemplifies qualities that allow her to shine and affect those around her. She leads by example. She is her own person, able to be herself as well as cooperate and help others willingly. She stands out in her attitude, cooperation, and effort. Eileen shows not just the desire to excel, but also the work ethic to make that happen. She is a quiet, confident student who self-manages and shows initiative. Eileen has been meeting deadlines, but she also turns things in early. She has excellent grades.

Eileen is a Rock Hill High junior and Beta Club member who wants to go to Greenville Tech to study sonography. She will be a valued healthcare worker in whatever field she enters due to her excellent soft skills. Congratulations, Eileen!

Health Science 1 Buddin

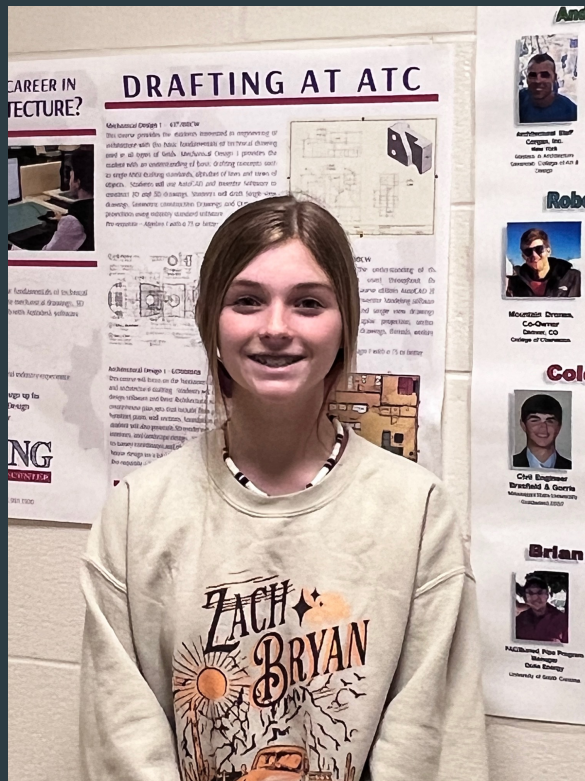

- ▶ Hailey Crane is the Star Student for the Health Science 1 program.
- ▶ Hailey is being honored because he/she demonstrates the skills and attributes that employers value.
- ▶ Hailey has shown leadership skills as a role model for others. She communicates well and submits exemplary work. Always attentive, she shows initiative in answering questions and assisting others with skills and classwork tasks. Any employer will be lucky to work with Hailey in the future.

Health Science Myrick

- ▶ Zoa Trammel is the Star Student for the Health Science program.
- ▶ Zoa is being honored because she demonstrates the skills and attributes that employers value. .
- ▶ She demonstrates a good work ethic by always using her time wisely to get all assignments done. She is always engaging in discussion during class and answering any questions that may arise during that discussion. She is always prompt to class and is not easily distracted. She also does a great job working with other students, especially on the various skills check offs we are currently working on. I have enjoyed having Zoa in my class.

STAR STUDENT FOR Mechanical Design 1.

Kailee Grose is the star student for Mechanical Design 1.

Kailee is an exceptional student. She takes pride in her work and displays enthusiasm and confidence when completing difficult drawings. Kailee's work ethic is top notch and a real joy to have in the Drafting Lab. She always uses her time wisely and strives to do her best. Congratulations, Kailee!

WELDING

- ▶ Conner Harris is the Star Student for the Welding program. Conner is being honored because he demonstrates the skills and attributes that employers value.
- ▶ Conner always shows up on time and ready to work. He is rapidly excelling with the shielded metal arc welding process. He uses every bit of lab time putting in the practice to master the trade. With this work ethic Conner has a bright future.
