Feedback and Suggestions for School Improvement

School of Choice:

Sunset Park Center for Accelerated Studies offers a rigorous, accelerated curriculum for all students. We are the only school in York County who provides Gifted and Talented endorsed educators for all students in Kindergarten through Fifth Grade. Our classroom teachers build upon their students' interests in real-life issues and the world around them, as well as their academic strengths, to prepare all students for the 21st Century through multiple enriched learning opportunities.

Other improvement ideas?
