Re: AHERA Asbestos Inspection

The asbestos inspection of the schools and buildings of the Rock Hill School District Three has been completed as required by the 1987 Environmental Protection Agency's Asbestos Hazard Emergency Response Act (AHERA).

As required by AHERA, the management plans for each school are available in the principal's office for anyone who wishes to see it.

A periodic surveillance (every six months) has also been incorporated to insure safe conditions.

The reports from these inspections show all materials are safe and non-friable in our schools.

If you have questions, please call 981-1150.
