

RFP #21-2211 Intercom and Digital Signage Systems

Addendum #2: Questions and Answers

September 30, 2021

NOTE:

- The RFP due date has been extended to **October 14, 2021 at 2:00PM**.
- 5% bid bond must be submitted with the proposal.
- A 100% performance bond shall be required.
- The District has removed, from the scope of work, and will be procuring the entire digital signage as described in the scope of services to include the digital signage players, software, displays, mounts and associated electrical requirements. The Contractor shall be responsible for the CAP integration to send CAP alerts to the digital signage alert management software.
- Appendix C has been revised (page 7)
- The New Design Set with the equipment location is presented as Exhibit B (page 9)
- The pre-proposal sign in sheet is attached.

Questions and Answers:

1. Will NetPlanner, the consultant, be allowed to bid direct, subcontract, or cross-sell in any capacity to deliver goods and/or services on this bid?
ANSWER: NetPlanner is the consultant on the project and is excluded from bidding or performing any installation on the project. NetPlanner is already contracted to assist Rock Hill Schools in managing the project through its duration.
2. Will you accept a brand that is equal or greater than the referenced manufacturer?
ANSWER: No
3. Will the awarded contractor be allowed to drop ship product to the District for storage/staging during this project? Note: There will be thousands of boxes of hardware in total to complete this project.

ANSWER: The Contractor may ship items to a Rock Hill Schools district address pending coordination ahead of time and provided that the Contractor handles all receiving, handling and storage of equipment. Contractor is responsible for securing equipment until such time as it is installed.

4. Is there a staging area within the district that can be used in the event of a multiple school rollout? Or will there be space at each school to stage as we deliver to the site?

ANSWER: See response to question #3.

5. In an effort to provide the highest value of service and future services, will the awarded vendor be required to have staff in a brick and mortar office within a defined radius of the district office (i.e. 100 miles) as there will be needs to repair/replace/troubleshoot hardware at times that cannot be done remotely?

ANSWER: No

6. Will there be a preferential bid preference /advantages to vendors domiciled in South Carolina?

ANSWER: No

7. Will electrical power needs for flat panel displays and intercom hardware be the responsibility of the vendor?

ANSWER: Electrical requirements for Digital Signage scope of work shall be removed from this scope of work and will be performed by Rock Hill Schools. All other requirements outside of electrical outlets to be provided for digital signage needs are still included in this RFP.

8. Can extensions be made on the timeline of completion for unforeseen circumstances such as delays in product delivery as no substitutes are currently allowed and we are the mercy of the manufacturers?

ANSWER: Dates listed in the RFP are target dates. At this time the dates remain the same. The District realizes that world conditions and material availability may affect the timeline and will address in the future, if needed.

9. Can you extend the completion date?

ANSWER: See response to question #8.

10. Will any performance or payment bonds be required by the vendor?

ANSWER: Yes, a performance bond shall be required for 100% of the contract cost.

11. Please confirm testing procedures that will need to be adhered to by the vendor upon completion.

ANSWER: Refer to section I and J on pages 22 and 23 of RFP for intercom testing requirements. See below for Visix testing requirements.

- Testing of Digital Signage solution shall include functionality check of the following items:
 - Power on display.
 - Verify proper HDMI signal is received at the display from signage player.
 - Verify connection from signage player to the wireless network.
12. The Visix, NEC Display, Mount, and Installation scope can be fulfilled through the SC ITMO AV Contract at pre-negotiated State discounts and can be integrated seamlessly into the Valcom solution at a more competitive price than the RFP process. Will the School District consider making an award to (2) vendors (Valcom intercom scope & Visix Digital Signage scope)?
- ANSWER:** The District has removed, from the scope of work, and will be procuring the entire digital signage as described in the scope of services to include the digital signage players, software, displays, mounts and associated electrical requirements. The Contractor shall be responsible for the CAP integration to send CAP alerts to the digital signage alert management software.
13. How will we get rid of the speakers that are demoed? Do they go back to the owner, or are they to be disposed of?
- ANSWER:** All equipment shall be discarded in a dumpster supplied by the Contractor. The Contractor shall not re-sell any equipment that has been removed from a Rock Hill School District location.
14. RFP calls for removal of existing paging equipment. Will the district provide instructions as to what gear they will keep, and what gear they wish to dispose of?
- ANSWER:** See response to question #13.
15. With progress billing, if equipment is purchased upon receipt of PO, is it acceptable to invoice for the equipment in the 1st progress billing? Also what are the payment terms, 30, 60, etc.?
- ANSWER:** This project shall have milestone payments. Contractors will be allowed to bill for all staged materials that are stored on Rock Hill School's premises. Invoices for all materials must be provided showing receipt of materials being invoiced. Contractors must invoice all labor and materials separated by school/site. Each site will be allowed to be bill in 3 progress payments;
- 65% for material delivery
 - 25% for labor costs
 - 10% upon delivery of final closeout documentation per school/site.
- The District's payment terms are NET 30.
16. With the extent of this project, will the district allow progressive billing for equipment?
- ANSWER:** See response to question #15.

17. Will the awarded vendor be allowed to progressively bill for materials received/delivered and services rendered throughout the duration of this project?

ANSWER: See response to question #15.

18. What type of cable needs to be ran for 1 way speakers and how do they terminate?

Answer: Refer to manufacturer requirements and recommendations for cable types.

19. Please provide more detail regarding support of existing Atlas servers during the migration.

ANSWER: AtlasIED Support

Contractor shall perform all ongoing preventative maintenance, repair and support services including “Moves, Adds, and Changes” for the emergency alert and intercom systems and to ensure the systems are fully functional 24-hours per day, 7 days a week. Preventative maintenance shall include but not be limited to server, software, speakers, call stations, two-way communication devices, amplifiers, master panel, all other associated peripherals and equipment.

The Contractor shall be required to physically visit each location to provide preventative maintenance. The District will determine the dates. In addition to the physical visits, the Contractor will also provide remote check-ins on applicable systems. The Contractor will be required to provide a comprehensive service report after each visit and check-in. The report will detail all maintenance performed and provide a variety of information including, but not limited to:

- Equipment usage reports
- Equipment cleaning and preventative maintenance
- Firmware upgrades
- Software upgrades
- Tracking of serial numbers and warranty information by location
- Recommendations for equipment replacements, missing parts, etc.

It is the Contractor’s responsibility to provide all equipment, tools and labor to provide the necessary to provide the preventative maintenance. Contractor must maintain adequate hardware inventory to replace, repair and/or maintain each system at the time dispatched. Contractor must be prepared to provide an immediate replacement for defective equipment, to include hardware, and shall not remove a defective unit without an immediate replacement. The District will purchase a server if it is determined that the existing equipment cannot be repaired and is out of warranty.

EQUIPMENT LIST

1. AtlasIED School Intercom Equipment

Server:
AtlasIED 1200ACS. Announcement Control Module

Software:
GCK 3.0

Zone Control Module:
AtlasIED ZCM-V2+t. IP to Analog Zone Control Module

Amplifier:
QSC 108V. 70-volt line amplifier

IP Speakers:
AtlasIED IP Loudspeakers
AtlasIED I8SCM+. Ip Loudspeaker with LED display.

Strobe light:
Revere RV-RSTB

2. UPS Power supply: Smart Online UPS
3. Grandstream phone at front desk
4. Polycom VOIP phone system is connected as well.
5. S2 system is wired into the intercom system for activation of the lockdown alert.

*Some existing equipment from the previous intercom system (Rauland, Dukane, Telecor, and Bogan) may still be connected to the system.

REMOVAL OF EQUIPMENT

Any old or unusable equipment relating to the existing systems of the existing systems that is not being reused must be removed (speakers, phones, amps, switches, call buttons, etc...) and becomes the property of the Contractor and must be disposed of by them. Any equipment that is removed from the ceiling must have the ceiling tiles replaced by the Contractor to match existing if necessary. For example, if a ceiling mounted speaker is removed and a hole is created the Contractor. The Contractor must replace the ceiling tile with a matching tile. Any surfaced mounted equipment that is removed must be patched and painted to match existing wall color. The district will not provide any supplies for tile replacement or paint. Additionally, the district will not provide any equipment needed for disposal or installation such as a lift.

WORK ORDERS

All service calls will be entered into the District's work order system (School Dude). The awarded Contractor will have access to the system and receive notice of all work orders. All work orders and service requests shall be completed in the manner indicated below. It shall be the Contractor's responsibility to have any additional equipment on standby if necessary, to resolve any emergency system wide failure needs.

Issue	Response Time
-------	---------------

Server Issue	Four (4) hours
Speaker not working	Twelve (12) to Twenty-Four (24) hours
System wide intercom failure	Two (2) hours, Operational in eight (8)
Service Call	Twelve (12) to Twenty-Four (24) hours
Work Order	Twelve (12) to Twenty-Four (24) hours

The responding service technician will contact the facility and begin troubleshooting and gathering information/details from the District's representative to determine the appropriate response. Non-Emergency service shall be scheduled and coordinated with the facility during normal business hours.

Liquidated Damages

Work or work orders that are not completed according to the required time lines will follow the fine schedule below.

First Offense	Written warning
Second Offense	\$250
Third and Fourth Offense	\$500

20. What model speaker goes with the VL-520 in the classrooms marked. Does it wire back to the VL-520?

ANSWER: The New Set Design (Exhibit B) is provided to show the intended completed installation expectations. Typical classrooms do not have secondary speakers connected to VL520's. In the case of additional speakers being located with VL520's, these can be VE9022A type speakers and they can receive audio from the line out of the VL520. Power will still need to be provided to the VE9022A speaker for operation from the power supplies located in the nearest IDF.

21. Verifying the room layouts, is the intent to place the VL520BKs on the same wall that the clocks and buttons reside?

ANSWER: See response to question #20.

22. The RFP calls for the contractor to supply the power connections for the digital signage displays. Is there any detail available for the locations of the displays? Or, is it the intent of the school district to handle the power needs separate from this RFP?

ANSWER: See response to question #7.

23. Are the existing classroom clocks IP?

Yes

APPENDIX C – COST PROPOSAL (REVISED)- This form must be submitted back with your response.

Facility	Total Valcom System Cost and Installation	Allowance
Applied Technology Center		
Aquatic Center		\$10,000
Castle Heights Middle School		
Carroll School		\$10,000
Central Child Development Center		
Centralized Command and Control Center (C4)		
Central Office		
Cherry Park Elementary School		
District Three Stadium		\$10,000
District Three Stadium South		\$10,000
Dutchman Creek Middle School		
Ebenezer Elementary School		
Ebinport Elementary School		
Flexible Learning Center		
Independence Elementary School		
India Hook Elementary School		
Lesslie Elementary School		
Mt Gallant Elementary School		
Mt Holly Elementary School

GENERAL NOTES
1. THIS DRAWING PACKAGE REFLECTS THE AV AND/OR SECURITY INSTALLATION AND THE REQUIREMENTS FOR THAT INSTALLATION. THOSE REQUIREMENTS WILL BE PROVIDED BY THE GENERAL CONTRACTOR (GC), ELECTRICAL CONTRACTOR (EC), THE END USER (OFE), AS NOTED ON DRAWINGS.
2. ALL POWER OUTLETS REQUESTED IN THIS DRAWING PACKAGE FOR THE AV AND/OR SECURITY SYSTEM NEED TO BE DEDICATED CIRCUITS WITH ISOLATED GROUNDS. THEY SHOULD NOT BE SHARED WITH NON-AV/SECURITY EQUIPMENT CIRCUITS. THE AMPERAGE WILL BE NOTED IN THE DRAWINGS.
3. ALL CONDUIT PROVIDED IS REQUIRED TO HAVE PULL STRINGS.
