8. **"OR APPROVED EQUAL" CLAUSES:** Certain processes, types of equipment or kinds of materials are described in the specifications and on the drawings by means of trade names and catalog numbers. The main closets (MDF) were recently upgraded at these locations. Based on the current active port counts, this will require a total of 76 switches to be installed and configured. The District currently has an inventory of 60 switches on hand for this project, thus will only require acquisition of 16 additional switches and applicable licensing. This request for switches is for equipment acquisition only. The district is not requesting any labor associated with the switches.
- SCOPE 2 – UPS UNITS** - The objective of this scope within the Request for Proposal (RFP) is to obtain UPS Units to provide a power buffer during a power outage that will maintain power to the District's switches during the transfer time to the District's generators. The District is requesting a solution that is enterprise oriented and can be maintained/serviced at ease without any interruptions or downtime. This request is turnkey. The district requires installation and configuration of the new UPS Units.

III. BACKGROUND

The Telecommunications Act of 1996 established a fund by which Schools and Libraries across the Country could access discounts on eligible telecommunications products and services. The program is commonly known as the E-rate Program. The eligibility for discounts on internet access, telecommunications products and services, internal connection products, services and maintenance is determined by the Federal Communications Commission (FCC). Funding is made available upon application approval by the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC), which was established by the Act.

The project herein is contingent upon the approval of funding from the Universal Service Fund's Schools and Libraries Program, otherwise known as E-rate. Even after award of contract(s) and/or E-rate funding approval is obtained, the District may or may not proceed with the project, in whole or in part. Execution of the project, in whole or in part, is solely at the discretion of the District.

The District encourages interested service providers to offer proposals for any, each, or all of the categories of services listed above. The District will negotiate and award contracts as it deems necessary. It is the intent of the District to award two-year contract(s) featuring an option for voluntary extensions. The initial term may be voluntarily extended / renewed. Renewals will be in one-year increments and will be instated via a simple one-page voluntary amendment to extend the Contract Expiration Date one year and to be executed by the District and the Offeror. The extensions may be less than, but may not exceed three (3) additional one-year periods. If the contractor elects not to extend on the anniversary date, the contractor must notify the District of its intention in writing 90 days prior to the anniversary date. Any further extensions must be in accordance with the District Procurement Code.

Each location is connected via WAN and Internet access infrastructure provided by the District. The District's LAN/WAN environment is predominantly Ethernet and the Network Server platform is predominantly Microsoft. Fiber ring technology provides connectivity of each location to the District's WAN. A total of five fiber rings have been implemented to ensure the required bandwidth for each location, which varies from 1 Gbps to 2 Gbps for all of the District's elementary, middle, high and administrative facilities. The WAN fiber rings are connected to the District's server farm along with our internet connection, which is currently a 5 Gbps circuit.

1. No circumstances currently exist that create a Conflict of Interest in my performing the services required by the Solicitation to which I am responding or the Agreement to be signed if I am the successful Offeror in response to this Solicitation, and
2. I understand and acknowledge that my failure to disclose any affiliation or relationship that creates or may create a Conflict of Interest shall be deemed a material misrepresentation and sufficient reason for Offeror and Offeror's company to be disqualified, suspended, and/or excluded from participating in this and any future solicitation and procurements as well as removal from the Rock Hill Schools vendor database. It may further result in termination of any contractual relationship with Rock Hill Schools (District) and may be grounds for disciplinary action, up to and including debarment by the District, fines, penalties, imprisonment, or civil suit to be brought against Offeror or Offeror's company.
