

24-2522

Fertilizers & Herbicides for Athletic Fields

June 16, 2025

Addendum #1:

1. Question: For the 32-0-8 fertilizer the equivalent we have is 32-0-3. Would that work? **Answer: Yes 32-0-3 would be acceptable.**
2. Question: We can do the 5-0-17 w/ Dimension, but would you be interested in doing another round of 0-0-7? **Answer: No on the additional application.**
3. Question: For the Ronstar Flo, does it have to be the trade name Ronstar or could it be the generic version? **Answer: Generic is acceptable.**
4. Question: For the Round Up Pro Concentrate Extended Weed & Grass Killer could we get a little more information on the exact one that is used? Maybe see a label? There are a few options with that name. **Answer: 50.2% glyphosate**
5. Question: For the Hi-Light Vegetation Spray indicator, would a quart or 2.5-gallon form work? **Answer: 2.5-gallon is preferred.**
