

# PRACTICE TEST DAY

- Turn off Wi-Fi for 15 seconds and turn back on
  
- Have student run Windows updates (just type updates in search bar at bottom left)
  
- Make sure that DRC icon is on the desktop and launch DRC. If icon is not there, check Microsoft System Center and see if it installed. If not, check Installation Status and see if you can retry it.
  
- Students will need to type in the ORG# that has been assigned to your grade or class
  
- Run the readiness check, if not all green run again and report if any orange or red checks.
  
- Launch the practice test and run through a series of a few questions
  
- Determine how many power cords are needed for students laptops
  
- Determine how many laptops are needed for students
