Current PTA member total is 94

New Business:

 Izabela introduced idea of School holding an International Festival Day (maybe a Saturday morning) that the PTA plans but that school staff, teachers, students and the RH community could actively participate and attend. Discussion was held about whether this is something that school would be interested in and Mr. Thomas replied that there would be some staff/teachers that would, particularly World Language and Music and Arts. There was discussion about when to hold this event since it would take a great deal of planning and planners. There is hesitation to put on something this involved in the coming spring since the StepItUp fundraiser will be going on in late April or May. Parents also expressed it good idea, just needs to be discussed further and with administration as far as planning time and logistics.

Group asked Mr. Thomas as a compromise to see if the World Languages department was already planning any international type events that perhaps the PTA could support that event on a smaller scale and then look into the school wide community festival next year.

• Rebecca Wren volunteered to work with Kelly Scott to coordinate the box tops to be sent in on Nov 1. Rebecca took box tops coordinator info with her.

Meeting adjourned at 9am
