Putting a spotlight on the new initiatives transpiring at the Rock Hill Workforce Development & Adult Education Program

At Rock Hill Workforce Development & Adult Education Program this month we expanded our ParaPro initiative to the masses, by opening up certification sessions for the Education Pathway students from ATC.

We had 15 students take advantage of the opportunity. We had 2 cohorts. This collaboration was due to the hard work of Mrs. Jennifer Newendyke(ATC Director) and Mrs. Freeman.

They met with Rock Hill Workforce Development & Adult Education Program leadership and created a plan of action. This process has allowed for the Education Pathway students to graduate with their ParaPro credential, making them HQ for work right after highschool, or part-time work as they continue their post-secondary education.

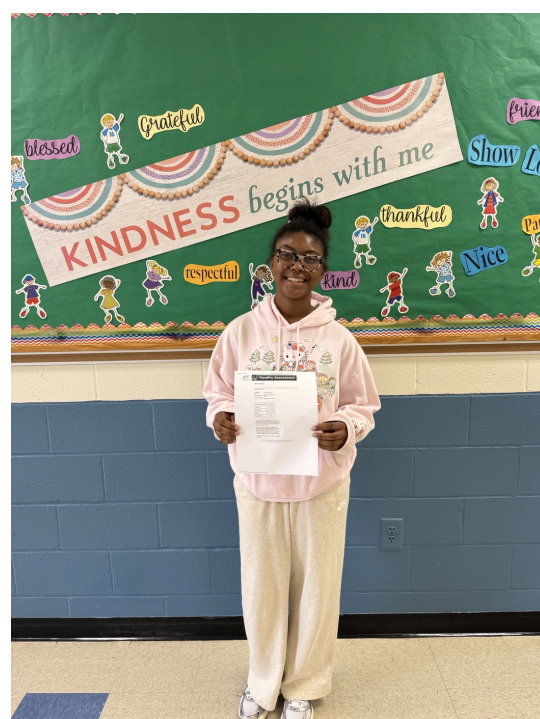

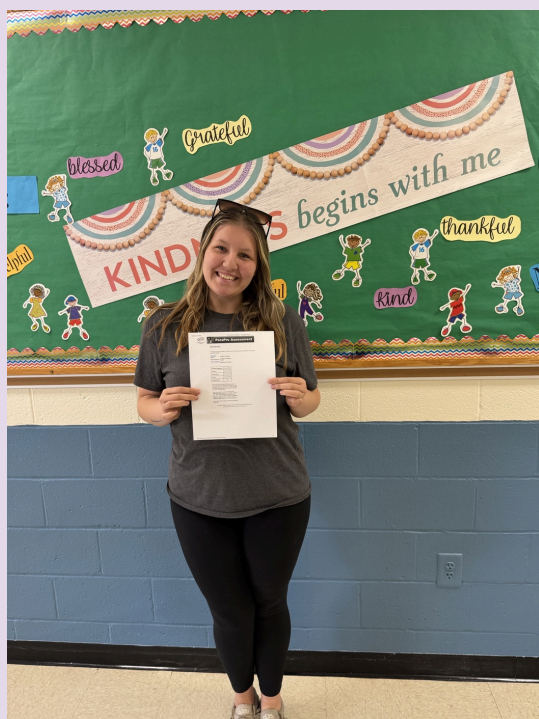

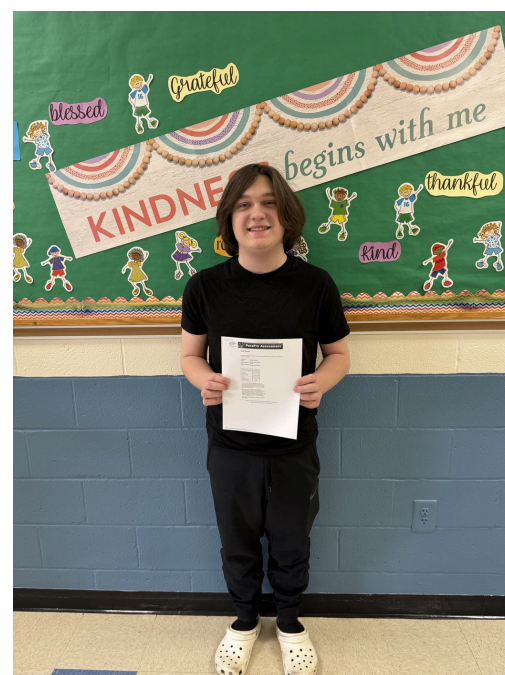

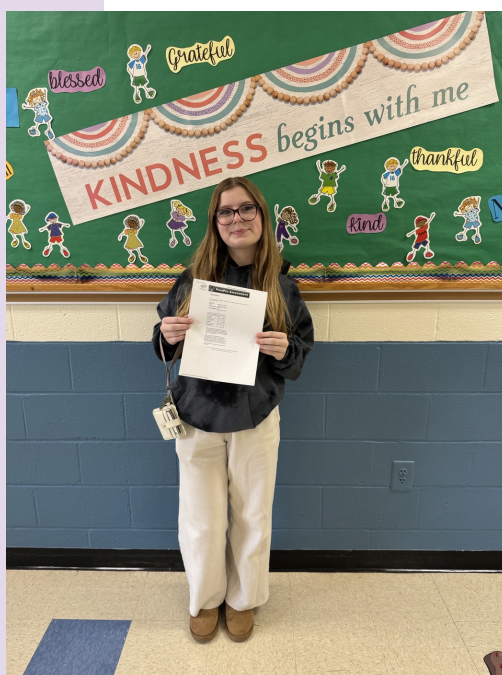

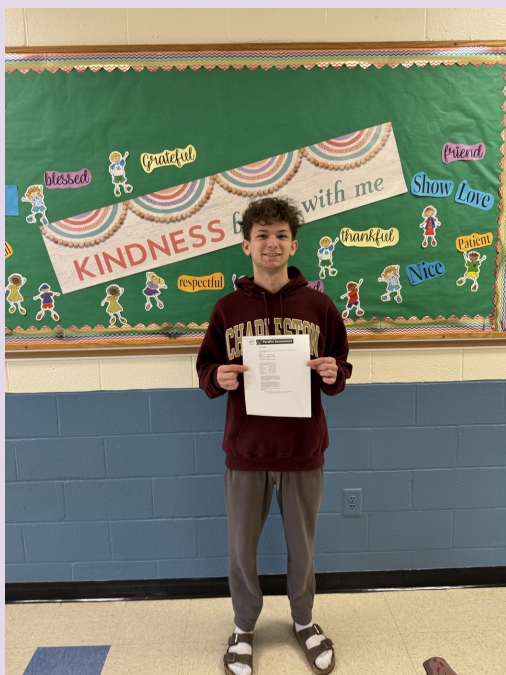

Cohort 1

Cohort 2
